Spasticity is one feature of the upper motor neuron syndrome and is therefore common in disorders of the central nervous system. It is characterized by an increase in muscle tone causing resistance to movement that is velocity dependent i.e. it depends on the rate of movement, with sudden high velocity movements causing a greater increase in tone (Lance 1980). Traditionally, the features of ...

A Practical Approach to the Management of Cancer Patients ...

Every activity involves some type of risk. But it takes a practical approach to understand an activity's risk, to identify this risk, to plan for this risk, and to monitor and manage this risk. This paper examines a five-stage approach for managing risks, one that serves as an alternative to the PMBOK Guide's Project Risk Management process. In doing so, it explains each stage's purpose and ...
