Charles Darwin (1809-1882) and Alfred Russel Wallace (1823-1913) are jointly credited with coming up with the theory of evolution by natural selection, having co-published on it in 1858. Darwin has generally overshadowed Wallace since the publication of On the Origin of Species in 1859, however. Natural selection is a mechanism of evolution ...

Here, evolution is being used simply as a political instrument for transforming the human genome into an imaginary glass ceiling against equality. There is thus a convergence between the pseudo-biology of crude adaptationism (the idea that everything is the product of natural selection) and the pseudo-biology of hereditarianism.

### What Is Terrorism? - SAGE Publications Inc

The government of a state enjoys political power because of the military's subordination to the political authority. Whenever this subordination is disturbed, military leadership or commander snatch political power. It is exactly how various coup detaches occur in the world, and political power changes hands.
